# FACULTY

# DR. O. C. DAVIS
## Superintendent

As one observes the current events of the day, one sees a great deal of misunderstanding among nations, ethnic groups, religions, and ideologies which has led to much strife. Sometimes brother is pitted against brother. It appears we live in a time when cooperation, understanding and communication, possibly vital to the survival of the world, seem to be lacking.

As I reflect upon these events and the need for international understanding and cooperation, I think of the warm friendly atmosphere of the International School of Islamabad, where on a small enclosed area of 20 acres, there truly does exist an atmosphere of understanding and cooperation among students, faculty, and other staff members representing 33 nationalities with diverse ethnic and religious backgrounds.

Perhaps the International School of Islamabad could serve as a model for those groups with diverse backgrounds to live together in harmony. As the Superintendent of this institution, I feel very proud of all of those who have helped create such an attitude of harmony and warmth as I perceive to be on our campus. This yearbook should serve well in recalling to all of you the many rewarding experiences of school year '75 - '76. It has been my pleasure to participate in this campus life.

Hey Sugar Bear . . .

I've watched you go thru changes that no man should face alone.
Take to heel, or tame the horse, the choice is still your own.
But arm yourself against the pain a wounded bird can give —
And in the end remember, it's with you — you have to live.

Stand your ground — I think you've got the guts it takes to win.
But you must learn to turn the key, before she'll let you in.
And understand the problems of the one you want so near,
Or you'll wear the coat of questions — till the answer hat is here.

Serenade your angel with a love song from your eyes —
Grow a little taller, even thou your age defies.
Feel a little smaller....and in stature you will rise.
A hobo or a poet must kill dragons to survive —
And humble pie is always hard to swallow with your pride.
But if you've got the IRISH in you —
don't ever give up 'till you die.

Tomorrow, and tomorrow, and tomorrow
Creeps in this petty pace from day to day,
To the last syllable of recorded time;
And all our yesterdays have lighted fools
The way to dusty death. Out, out brief candle!

That struts and frets his hour upon the stage
And then is heard no more. It is a tale
Told by an idiot, full of sound and fury
Signifying nothing.

# "I've saved ten rupees. So what?"

Prices keep rising with thoughtless and wasteful expenditure. By spending even a few rupees less each time you shop, you are helping to combat inflation and to hold the price line.

What you save also contributes to national productivity. When UBL recycles your deposits in the agricultural sector, for instance, in financing inputs of fertilizers, better seeds and pesticides, your savings raise production upto three times the amount invested. By saving you are helping to make the country self-sufficient in food.

Then, you are adding to your savings too—much more than you think, in fact, because savings and profits multiply fast when you save with UBL.
